

Performance Carbine - Shooter Assessment and Development

This 8-hour carbine course was specifically designed for the 2017 MTOA Conference. The purpose of this course is to provide SWAT officers with instruction and feedback to guide their future training and development with the carbine. With a performance-based training methodology, individual officers will be pushed to increase their own level of proficiency with the carbine regardless of their current skill level. This fast-paced course will test and evaluate each shooter's ability in various aspects of operating the carbine through the use of training drills and standards. The drills and standards selected for the class are designed not only to test a shooter's abilities, but to serve a training function as well, helping to build necessary skills to reach a high-level of performance with the carbine. Shooters will have the ability to track their scores during the course, and upon completion will receive a copy of all the drills and standards shot throughout the day. By applying the lessons provided by the course instructors, officers will be able to use these drills to improve their proficiency with the carbine and track their own progression as tactical shooters in the future.

Specific areas of instruction include:

- Basic Rifle Marksmanship
- Efficient weapon handling
- Carbine Reloads
- Pistol transitions
- Equipment Setup & Optics
- Target transitions
- Movement Drills
- Positional Shooting
- Communication
- Tactical Principles
- Identifying strengths and weaknesses
- Developing a personal training plan

Equipment Requirements:

Students should arrive the morning of class with a deployment-ready carbine. We recommend your carbine be zeroed for the ammunition you plan on shooting that day at the class. Carbine must be equipped with tactical sling. Please have five carbine magazines, a pistol, holster and three pistol magazines. Mag pouches, body armor and gear applicable to one's current assignment. Eye and ear protection, gear appropriate for weather conditions. 500 rifle rounds. NO STEEL PENETRATOR, GREEN TIP OR OTHER AP AMMO AS WE WILL BE SHOOTING A NUMBER OF DRILLS ON STEEL TARGETS. 100 rounds pistol ammunition. Small notepad and pen for notes. Bring a lunch, water, sunscreen.

Instructor:

Adrian Alan is an owner of Performance on Demand Shooting and serves as a police officer and SWAT sniper at a metropolitan agency in Southern Wisconsin. He is a WI-DOJ certified Firearms Master Instructor Trainer, Tactical Response Instructor and EVOG instructor. He has taught a variety of courses at the academy level as well as specialized trainings for SWAT officers such as armored vehicle/MRAP operations, high-risk vehicle tactics and small unit-tactics. Adrian has substantial experience with the AR-15 platform and has assisted law enforcement agencies across the country in the development of their patrol rifle programs and policies. In 2015 he was recognized nationally, receiving the Jeff Chudwin Award for Patrol Rifle Excellence at National Patrol Rifle Conference. He enjoys competitive shooting and draws experience from participation in USPSA, 3-gun and long-range / precision-tactical rifle matches. He has a bachelor's degree from the University of Wisconsin-Madison.
