

LEARN THE TECHNIQUES AND SKILLS NEEDED TO TRAIN DEPARTMENT PERSONNEL

BASIC TACTICAL SHIELD INSTRUCTOR PROGRAM

Whether you're training Tactical Operators, Patrol Officers or Drug Enforcement Units, the Basic Tactical Shield Instructor course will help you become more proficient as a ballistic shield operator and instructor.

This intensive three-day course provides instructors with the techniques and skills required to train their department's personnel while operating with a ballistic shield. Students will learn drills, shooting techniques and tactics for the ballistic shield officer, while being required to make presentations, supervise range drills and develop course(s) of fire. Additionally, participants are required to pass a written exam and a handgun/shield firearms qualification course to complete training.

COURSE OVERVIEW

Training is structured to provide both hands-on, classroom instruction, as well as range training.

Day One covers fundamentals and individual shooting skills.

Day Two focuses on individual/team techniques and drills, including stacking, officer-down rescues, approaches to doorways, threshold evaluation, port-and-cover window tactics, and stairway and hallway considerations.

Day Three is a half-day (morning only) devoted to students completing their course requirements, including firearms qualification, written exam, courses of fire and classroom presentations.

Students will be evaluated on their knowledge of the topic, instructional skills and safety considerations. Courseware (booklet/CD) will be provided, but students must provide their own handgun and ammunition.

Prerequisites

Basic firearms proficiency and instructor background preferred. The Safariland Training Group provides instruction to **sworn** law-enforcement officers, correctional personnel or active military personnel only.

ADDITIONAL DETAILS

Required Student Equipment

- Full-duty, tactical gear/armor, including ballistic helmet (Tactical)
- Appropriate Range attire, duty gear, armor and ballistic helmet (Patrol)
- Eye and ear protection
- Ballistic shield/with viewport (if you have one available)
